- In November, Chair Gardner attended a meeting with the Governor, who raised concern about tuition costs. The Governor acknowledged that tuition at Utah schools is lower when compared to
national peers but suggested more could be done to lower costs as inflation continues to affect many Utahns.

Following additional discussion of the Governor’s proposal to freeze tuition rates for the 2023-24 academic year, Trustees recommended in their November 8th meeting that U leadership engage an outside consultant to conduct a comprehensive review of expenditures, propose operating efficiencies across campus and identify areas of potential cost savings.

- Goal
  - Target is $30 million in ongoing savings from across the University in the next 5-6 years (roughly the equivalent of a 1% tuition increase)
  - Savings would be diverted into faculty and staff salaries
  - University of Utah Hospitals and Clinics are not included in the scope of work for this RFP

- Request for Proposal – Timing
  - RFP is in final stage of being prepared and will go to the market for selection in January
  - Selection committee will include representatives from administration, faculty and Board of Trustees
  - Selected consulting firm is expected to be engaged by March
  - Campus-wide communication plan begins in January to explain goals and process

    - Establish baseline data, define the current state, provide review and analysis, and determine potential opportunities and strategies for prioritization
  - Prioritization and action plan = 6-9 months
